DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 - 15, drawn to a therapeutic composition.

Group II, claim(s) 16 - 30, drawn to a vaccine adjuvant.

Group III, claim(s) 31 - 45, drawn to an anti-endotoxin.

Group IV, claim(s) 46 - 60, drawn to a growth promoter.

2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
Under Unity of Invention, Part 1 (Annex B, MPEP), the method for determining unity of invention under Rule 13 permits the inclusion of any one of the following combinations of claims of different categories in the same international application: (i) in addition to an independent claim for a given product, an independent claim for a process specially adapted for the manufacture of the said product, and an independent claim for a use of the said product, or (ii) in addition to an independent claims for a given process, an independent claim for an apparatus of means specifically designed for carrying out the said process, or (iii) in addition to an independent claim for a given product, an independent claim for a process specially adapted for the manufacture of the said product and an independent claim for an apparatus or means specifically designed for carrying out the said process. The instant application has four independent inventions that do not fall into one of the aforementioned categories.

3. A telephone call was made to Kevin Dunleavy to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
